Experience

Senior Backend Engineer @ Acme Corp Jan 2023 - Present

- Rebuilt the billing pipeline in Go, cutting invoice-generation latency from 12s to 400ms for 50,000+ monthly customers.
- Built a churn model in Python and pandas that flagged at-risk accounts.

Data Analyst @ Contoso Jan 2019 - May 2020

- Analyzed A/B tests in SQL and Python for 200,000 weekly users.

Projects

Churn Predictor § Code Python, pandas, scikit-learn

- Trained a classification model on 2 years of billing data.

Technical Skills

Python, pandas, SQL, scikit-learn
